Vol. 79 No. 52 Wednesday, December 29, 1971 10¢

378-9136 35 Dillon Avenue, Campbell, California

Happy New Year

PRESENTS PLAQUE--Mrs. Dorothy Trevethan, Campbell City Clerk, presents Mrs. Edna Smith a resolution made by the Campbell City Council proclaiming Monday as "Edna Smith Day".

CITIZEN-OF-THE-YEAR---Neal Royer (left), long-time educator in Campbell, last Friday night received the Chamber of Commerce citizen-of-the-year award for 1970 for his outstanding contributions to his community during the 24 years he has been a resident of Campbell. Making the presentation was the Rev. W. H. (Ben) Gould, winner of the award in 1969. On the right is Bob Bullard, 1970 CofC president, and in the background is Norm Paul, incoming president.

PLANNING COMMISSION APPROVES 5-2

Amato site plan gets first okay

School district business manager plans to retire

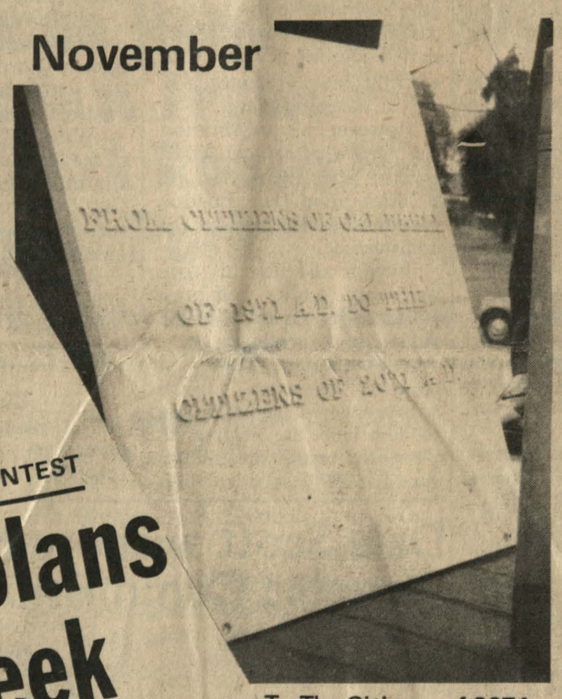
AT "TOWERS" AND PRUNEYARD

Sahadi plans new 10-story building

STRICKEN ON SATURDAY

John D. Morgan remains critical

Campbell dedicates new civic center



To The Citizens of 2071

NOW YOU BELONG---Lowell Benson, past Lt. Governor of Kiwanis International and a member of Campbell Kiwanis Club, installs Mrs. Irma Sanders into the club's ranks. Mrs. Sanders may be the first woman member of the nationally known service club.

MOTHER REMAINS CRITICAL

Father, three sons lose lives in home fire early Thursday

TREE IS DOOMED---A huge pine tree adjacent to the new city hall became diseased and had to be removed. In building the new city hall, a protective wall had been constructed around the tree. Eventually a new tree will be put in its place.

ENTERTAINMENT, PRIZES, BEAUTY CONTEST

PruneYard plans eventful week

SATURDAY SLAYING

Police check on murder leads

Trustees set 50-cent tax hike vote

Election in Campbell school district takes place Feb. 29

MOTHER OF THE YEAR--Mrs. Betty Ritter, 119 Alice Ave., was declared Campbell Press' Mother of the Year last Friday. Mrs. Ritter, (left) somewhat overcome by the honor, receives a certificate declaring her "Mother of the Year" from Mrs. Sally Howe, woman's editor. Details of her selection are on page 5.

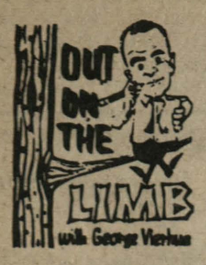
King, MacQuiddy win election to Campbell board

New postmaster named

UNPRECEDENTED ACTION

Council "fires" two planners



TRADITIONALLY IN the last issue of the year, The Press reviews pictorially and by headlines the local news of the year.

The idea, of course, is to hit the high spots of the year. We scan through the 51 issues that have preceded the final one and then try to select the main events from them.

As we have said each year we have done this, it is utterly amazing what activities take place in just one year in this community. Trying to pick out pictures and headlines that tell the 12-month story is a difficult task.

The best we can hope for is to touch just some of the bases. We know we have missed some outstanding highlights and we have listed others that, in some people's minds, do not rate exposure in this review.

But that's the way it goes.

It has been pretty well established that a community newspaper to be an effective voice in the community must be diversified in its contents, for, after all, its readers have diversified interests.

Wouldn't it be awful, for example, if all our interests were the same?

And boring.

-0-

TRUE, THERE ARE some activities that encompass the entire community and any review-of-the-year, obviously tends to emphasize that factor.

But there will be some people who will argue that too much space has been given in The Press during the year to city hall activities. Others will claim that the school district issues have been greatly over-played.

And there will be some who will maintain that this newspaper does not cover either the city or the school district as fully as it should.

One might say then that this annual review-of-the-year also serves as a means for a self-appraisal by this newspaper as to what sort of balance has been maintained durin this year. Newswise, that is, not checkbook.

That really isn't quite a fair test either.

In almost every case, the headlines or pictures that were selected for the review were taken from the front pages of the 51 issues.

Those stories that didn't make the front page of The Press during the year were pretty much ignored. That really is too bad. There were some fair-to-middling inside features in those issues.

But the "researchers" couldn't take the time to peruse the inside pages of each issue and there was the space factor to consider.

The review had to fit in just one issue.

-0-

WHAT WAS THE TOP news event of the year in Campbell, obviously, is purely a matter of opinion.

And opinions will differ.

For example, Police Chief John Morgan was stricken in February and still remains paralyzed as the year ends. The community, individually and through organizations, rallied to build the "John Morgan Fund."

On a sad note, that probably comes closest to being the top story for this community in 1971.

In May Campbell had its first murder. In December after months of intensive investigation, following every lead, two suspects were arrested and indicted for that murder.

That, too, was a big story.

In March, two boys were killed by an exploding shell and in December a father and three sons lost their lives in a fire.

There was a school district election in April that stirred the community and in September the city dedicated its city hall.

In May, Dick Adams, acting post master, died and in July death came to Bill Homan, long-time member of the West Valley College Board. (In September, the Rev. W. H. (Ben) Gould was elected to fill out Homan's term.)

We betcha there will be some who would draw up an entirely different list for the big stories of 1971.

So happy New Year.

And here we go again.

-0-

Council postpones public hearing on site plan for Amato property until Jan.10

Opponents to the proposed development on the 31-acre Amato property between Campbell and Latimer avenues and the developer, Dura Style Homes, found an area of agreement Monday night at the City Council meeting.

They agreed that the public hearing on the site plan scheduled for Monday night should be continued until Monday, Jan. 10, 1972.

And the Council obliged with a continuance to that date.

On Dec. 1, the Planning Commission by a 5-2 vote had approved the zone change of the property to P-D (planned development) which would allow the site plan as presented by Dura Style..

Under Dura Style's proposal, there would be 47 "detached" or single-family units on Darryl Court and Hunt Court, new cul-de-sacs coming off Latimer and Campbell avenues, respectively. These two streets would be the closest to the single-family developments that border the property.

The site plan provides for 186 "attached" or multiple units on the rest of the parcel, plus a recreational center and two play grounds.

However, residents in the areas near the proposed development have indicated their opposition to the plan, which, Dura Style Homes spokesmen claim, has less density than the general plan for the area would allow.

The residents vigorously fought the plan at the Planning Commission level and have indicated that they will continue their battle before the City Council.

At a previous Council meeting, Bob Snead, of 241 Victor, spokesman for the protesting residents, had requested the public hearing be continued until Jan. 10 because of the holidays. At that time he presented a petition with 79 names asking for the deferrment.

However, the Council could not take official action on the postponement until the hearing was called, which was Monday.

Snead was on hand Monday, and prior to the hearing coming up on the agenda, presented another petition with an additional 261 names, asking for the continuance.

However, his presentation was somewhat anti-climatical as Dura Style Homes, Inc., in a letter from O.C. Engdol, president, had agreed to the continuance.

Engdol said that his firm was ready to offer their presentation, but was aware of the request of the residents.

"Due to the controversial nature of this matter," Engdol wrote, "we would be willing to continue the hearing to your first regular meeting on Jan. 10, 1972, in order to accommodate the residents."

In other actions at the meeting on Monday, the last session in 1971, the Council:

APPROVED a zone change for West Valley Post 158 American Legion at 1344 Dell Ave., which would allow the Legion to sub-divide a portion of the property.

APPROVED the pre-zoning of a lot and residence (R-1) at 1925 Cronwell Dr. that is being annexed to Campbell. The property is owned by Jeff Whitaker, city finance director.

DEFERRED until a subsequent meeting for clarification of a proposed preventive maintenance contract for the city hall's heating and cooling system. The proposal calls for servicing the equipment at $45 per month. The Council wanted clarification on how the warranty would be affected with respect to repairs that would be made at a $20 per hour rate.

UPHELD the Planning Commission denial of an extension of time for the development of a 178-unit apartment complex for the G.C. Morgan Co. at 350 Budd Ave. The firm had a number of prior extensions granted.

APPROVED an agreement to be executed with the City of Gilroy in which that city would transfer $25,000 in TOPICS funds used for intersections and railroad crossings for similar amount of gas tax money from Campbell.

ENDORSED a U.S. Senate bill, at the request of the mayor of Honolulu, that would protect shipping stoppages to that state in the event of another strike.

APPROVED a resolution supporting the establishment of a mass transit district in Santa Clara County, the first step necessary to receive funds from the sales tax on gasoline.

APPROVED in concept the proposed policies of the Local Agency Formation Commission which would strengthen control of urban development.

APPROVED the transfer of the franchise for cable television from San Jose Cable to Gill Cable Co., a necessary step because of the change in ownership of the firm.

APPROVED the plans for a building on Dillon Ave. for John Queen as required by ordinance.

CHAPEL

The word "chapel" is derived from the Latin word "cappella" meaning "cloak."

A CITY COUNCIL ELECTION will take place in April next year. Shortly after the first of the year, we expect that some of the rumors that have been floating around will become facts with respect to candidates in the municipal election.

Terms of three of the councilmen' Dr. Ed Rogers, Dean Chamberlin and Bill Smeed expire.

Dr. Rogers, who was elected in 1960 and will have completed three full four-year terms in April (a record for the city), has announced that he will not seek reelection.

During the 12 years, Ed Rogers, a political science professor at San Jose State, has served on the City Council, he has seen a tremendous change take place in his city. One might say that Campbell "grew up" during Ed's tenure.

Rogers can point with pride to what has been accomplished during his three terms, culminating in the new city hall.

He apparently feels that 12 years is a long enough time to serve his community as a city father, but we have a hunch that Ed will keep active in community affairs.

After all he has had quite an exposure to civic problems of all types during his 12 years as a city councilman.

-0-

WE HOPE THAT BOTH DEAN CHAMBERLIN and BILL SMEED decide to seek reelection.

As a close observer of the local municipal scene for the past 16 years, it is our considered judgment that both Dean and Bill have consistently and conscientiously served the city well.

Dean was elected to the council in 1968 and is completing his first term. Bill was elected in 1964 and is completing his second term. Coincidentally both served on the Planning Commission prior to their election as councilmen.

In our opinion, as councilmen, they have made a sincere effort to act in what they considered was the best interest of the city in all instances.

That, of course, does not mean that they always have been on the same side.

And we have disagreed with one or both of them on a number of occasions.

They are sincere and capable individuals and their integrity is unquestioned.

To us that is far more important than whether we have agreed or disagreed with them on any particular question.

We think they have done a good job and deserve reelection.

-0-

SOME WEEKS AGO WE suggested that NORM PAUL, a member of the Planning Commission and president of the Chamber of Commerce this past year, would make an excellent city councilman.

We have learned that apparently there are many in town who also share the same opinion.

We submitted that Norm has shown that he is unselfishly concerned about his community. He has a background of civic activities that should prove of invaluable assistance to him as a councilman.

We hope he decides to file for a seat on the City Council.

-0-

WE ARE WELL AWARE of the criticisms that will be leveled at us for making these "nominations" for the City Council.

There are those who maintain that we should keep an "open mind" and let matters sort of run their own course without making an observation or suggestion. But that ostrich-like attitude has no place in our make-up.

We make no bones about the fact that we are vitally interested in our city and its welfare, and the people who are keeping the store.

We want to see the best people possible in the positions of trust in our community and we don't mind a bit making our opinions known.

Or had you noticed?

Happy New Year to you, too.

Dale Scott again to head Planning Commission in '72

Dale H. Scott, who served as chairman of the Planning Commission during the past year, will be "officially" renamed to that position at the Planning Commission meeting next Monday, Jan. 3. Don Hebard will become vice-chairman.

Nominations of the officers were made at the last meeting.

Norm Paul, who was vice-chairman this past year, declined the office of chairman.

Included on the skimpy agenda for the Commission for the first meeting of the year will be a request for approval of plans for a two-story office building at 477 Division (at Dell Ave.) for NPL Associates.

Plans have also been submitted for a Carrow's restaurant at 1228 Camden Ave. A different restaurant had been approved previously for the property.

On the agenda also is a request for a variance for Lois Powell for a residence and carport at 240 E. Rincon. A six-lot subdivision for the Dubcich family property on the west side of S. Bascom, south of Shelley is also up for approval.

DALE SCOTT
---chairman again

AND DOWN THEY WENT—Last week an errant motorist lost control of his car at Andy's Sunnyoaks Shell station at 2855 S. Winchester and clipped a pillar and two pumps. Fortunately the fire that resulted was extinguished by the Campbell Fire Department before more damage was done to the station. However, the pillar and the pumps had to be replaced. Ironically, the station just recently had undergone an extensive remodeling program, including new canopies and new pillars.

Obituaries

HARRY HENRY

Funeral services were conducted this week for Harry Henry, 85, a retired postmaster and grocery owner from Indiana.

Survivors include his wife. Hillma, of 134 W. Rincon Ave., and a sister, Mrs. Glen Marshall of Indiana.

Campbell Memorial Chapel conducted funeral services. Interment was at Oak Hill Memorial Park.

MILTON MAGGINI

Rev. William H. Gould officiated at services for Milton (Mike) Maggini, 91, a native of Switzerland, who had lived here for the past 85 years.

Maggini, who died Dec. 25, was an insurance agent for Equitable Life for 37 years.

Survivors include a son, Jack Withrow of Turlock and three grandchildren. Services were conducted Tuesday with interment at Los Gatos Memorial Park.

DARTING AROUND

with Tom Carroll

The Banbury Clock staged a very successful Turkey Shoot just before Christmas. Twenty-seven darters competed for the bird with Nor-Cal President Tom Lawrence traveling the farthest. Tom lives in El Cerrito.

The play-off to see who got the larger bird was between the Clock's Gus Spencer and Scarlet La Rue's Gary Curtaz. An added incentive was a large pewter mug on a wooden base, suitably inscribed from the Falstaff Brewing Co. The spoils of victory went to Gary Curtaz with Gus getting the smaller of the two birds.

During the course of the afternoon two 140's were shot. One each to Ted Allen and Neil McIntosh. Bryan Riley was trying hard but only hit a 137. Others over 100 were Nancy Klauber with a 126, Dave Pena with a 117 and a 122 and this reporter who shot a 108-away and a 112-away.

Third and fourth places went to Dave Pena and Ben Macredes.

ENGLISH GAMES

For the first time, Scottish players are eligible to enter the News of the World National Individual Darts Championships. The biggest entry "from across the border" was 36 competitors from The Greenbank at Dairy in Ayrshire. Largest home entries were 46 players from the Radbrooke Hall Social Club, Knutsford, Cheshire and 42 from the Hinds Head, Dagenham, Essex.

Also reported were three 11-dart 501 games. Stuart Sharples of the Station Hotel, Bolton Road, Pendlebury, Manchester scored 135, 180, 140 and game shot of single 6, double 20. D. Stoddern of the International Kellog Club, Litherland, Liverpool shot 177, 135, 100, and game shot of triple 19, double 16.

The match I would really liked to have seen was the one shot by A. Watson at the Elephant and Castle, Sulton Road, Portsmouth, Hants.

His scores were 100, 180, 180 and game shot 41. All season we've only had two 180's in the Nor-Cal Darts Assn. This man does it back-to-back in a single game.

A for your thoughts

by Edith Bonnet

THE OLD WOMAN IN A SHOE

As I said before, my kids are my bag, housework is not. My husband says either he's going to buy a new dishwasher or trade in the old one (me) on a new model. Our seven year old makes a pretty good substitute except it takes him two hours and twenty gallons of water. Of course, he does offer one advantage to the standard model, the floor gets washed in the process. Well, sort of.

Dirty clothes are another bug-a-boo. Too bad nobody's invented disposable clothes. At five o'clock when "The Man" arrives, our home, more often than not, looks more like a bomb shelter that didn't work. So I've found my answer--a sign on the door reads --Welcome to Ming's Family Restaurant-Flea Market-Service Station-and ground to air launching site-meals when you can catch them.

"The Old Man in the Shoe" usually reacts with his usual finesse, "Hope you had a nice day honey, what did you do?" Of course, the top of his dresser doesn't exactly look like a picture from House Beautiful. But that's another story.

LET'S GET TOGETHER

One can not help noticing the increasing trend toward international restaurants, i.e., Japanese cuisine, Chinese, Mexican, Greek, Bavarian; the list goes on and on. Wouldn't it be great if we could open our eyes to the world with as much tolerance and understanding.

If the all-American hot dog can live peacefully with wienerschnitzels, enchiladas, snow peas, and baklava, the remainder of our senses---- "eyes to see, ears to listen and hearts to understand" should be able to follow suit.

LEGAL NOTICE

NOTICE OF HEARING ON PROCEEDING TO DETACH CERTAIN TERRITORY FROM COUNTY SANITATION DISTRICT NO. 4 OF SANTA CLARA COUNTY, CALIFORNIA
(Hamilton No. 11-A)

NOTICE IS HEREBY GIVEN that the Board of Directors of County Sanitation District No. 4 of Santa Clara County, California, did, on December 22, 1971, duly and regularly adopt its Resolution No. 71.12.157 initiating proceedings to detach from said District certain territory hereinafter described, known as Hamilton No. 11-A.

NOTICE IS FURTHER GIVEN that January 26, 1972, at the hour of eight o'clock p.m., at the office of County Sanitation District No. 4 of Santa Clara County, 100 East Sunnyoaks Avenue, Campbell, California, have been fixed as the time, date and place of the hearing on the proposed detachment.

NOTICE IS FURTHER GIVEN that any interested person desiring to make written protest against said detachment shall do so by written communication filed with the Secretary of County Sanitation District No. 4 of Santa Clara County not later than the hour set for hearing; a written protest by landowner shall contain a description sufficient to identify the land owned by him; and a protest by a voter shall contain the residence address of such voter.

NOTICE IS FURTHER GIVEN that the territory proposed to be detached is described as follows:

0.40 acres located west side Meridian Avenue between Hamilton and Blackford, APN 280-34-033.

DATED: December 22, 1971.
County Sanitation District No. 4 of Santa Clara County, California
By De Lora Spence, Secretary
PUBLISH: Dec. 29, 1971; Jan. 5, 1972.

June

EDUCATION FROM THE SKY—Students and faculty at Rosemary School were somewhat startled Friday morning when they found a parachute and an odd-looking box hanging from a tree in the kindergarten playyard at the school, 480 E. Hamilton Ave.

April

DOWN BY THE STATION—It was early Sunday morning when the crowd gathered at the San Jose Southern Pacific Station to await the train which would take them to Monterey on a "Sentimental Journey" sponsored by the Campbell Rotary Club for the benefit of the John D. Morgan Fund.

May

April

Kiwanis Club moves

TREES IN CAMPBELL—There have been 140 trees planted on Campbell Ave. and on Bascom south of Hamilton, according to the city's public works department. Flowering plums have been planted on Campbell Ave. and tulip trees on Winchester and in other areas.

Above, Herman Rice, leadman for the parks department and Andy Anderson, a street sweeper operator, assigned to help on the project, put in place one of the flowering plums on Campbell Ave.

Happiness is a decorated cake

"I have made over 4,000 brides happy with wedding cakes," says Hans Hansen, who recently sold the Taste Good Bakery after 41 years of service to the Campbell community.

New owners of the bakery on 384 E. Campbell Ave. are Mario and Edna Benedetti, an employee of Hansen's for more than ten years.

In 1930, near the height of the depression, Hansen bought the Peter Pan Bakery from Gordon Ainsley, who was associated with the Ainsley Cannery.

Hansen chuckles as he explains that the first thing he did was change the name to Taste Good Bakery. "A more appropriate title!" he says.

For the next 23 years the bakery's growth was intertwined with the cannery business, fluctuating with the seasons.

The bakery was busy in the summer, when the three canneries, Hydes, California, and Ainsley, were at their peak.

Hansen operated a concession in the Drew Cannery, part of the Ainsley Corp., where he sold coffee, sandwiches and sweetrolls. Extra help was needed during the summer, and at one time the range of the bakery was extended with three home delivery trucks.

The business stabilized in 1953, when the last cannery closed. The concession, of course, was gone, but five full-time employees were retained. Hansen's wife, Irene, worked as cashier-waitress at the fountain and baked goods counters, while Hans decorated wedding and birthday cakes,---his specialty.

Repeat business was gratifying to Hans and Irene. The proprietor notes happily that often in recent times, the parents of a bride-to-be would order her a cake, explaining that Hansen made their wedding cake, years ago.

Yet Hansen contributed a good deal more to Campbell during the growing years than fine cakes and pastries.

For 36 years a member of the Masonic Lodge and the Kiwanis Club, Hansen also served on the Chamber of Commerce, and was honored by them at a recent luncheon for operating the longest continuous business in Campbell.

The baker also demonstrated great interest in the Old Settler's Day Parade, a unifying and traditional celebration in Campbell, until its halt in 1965.

With their colorful floats, often crowned by facsimilies of gigantic, mouth-watering cakes, the Hansens garnered eight trophies at the event, three of them first place in the Commercial Division.

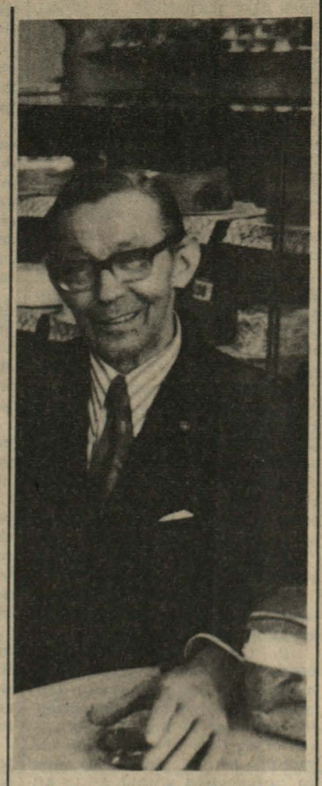
The veteran Danish baker says he has watched Campbell change in many ways throughout the years.

He is frank about his attachment to the business, saying "I like people and miss being around."

As with any change, there are reasons, and compensations. Hans and Irene have more time to visit with their three children, Joyce, Carol and Roy, and their six grandchildren.

Part of the fun of being at home is watching the antics of Dennis, their pet squirrel-monkey.

Future plans for the Hansens include short travels, and a much-anticipated trip to In the meantime they are "taking it easy at home," awaiting the future and remembering the good days.



HANS HANSEN

Roy Halls host traditional family breakfast

Mr. and Mrs. Roy (Irene) Hall, 292 Esther Ave., continued a tradition Christmas morning.

Twenty years ago, the Halls started taking their children out to breakfast. That first breakfast, according to one of their family, wasn't too successful.

"We drove around for over an hour looking for a place that was open on Christmas morning. Finally, around 11 a.m., we found a little greasy spoon in San Jose that was open.

"Since there was no table large enough for all of us, the men sat at one and the women at another. The waitress took the men's order for breakfast. But when she got to the women's table, she said it was too late for breakfast--we had to have lunch!."

That was the scene 20 years ago. This year, 27 members of the family gathered at Ken's House of Pancakes on Hamilton Ave. As in the past, Roy, father and grandpa, treated.

Present were Mr. and Mrs. Hall; Ray, Bobbie and Debbie McVea; Paul and Wanda Nelson and children; Chuck Culley, Steven and Kathy Culley, Allen Culley and Lynn, and Charlene Culley;

Thermun and Joan Herrell and children, Connie and Mike Fitzpatrick and Mary Rocha; Janice and Jim Brady and Carmen; Bill and Rosa Garrison and Suzy and Terry; and Marty and Guy Hall.

IT WAS A VERY HAPPY CHRISTMAS--Mr. and Mrs. Roy Hall, 292 Esther, took their children and grandchildren out to breakfast Christmas morning. This was the 20th anniversary of the Hall's annual treat for their family. The breakfast was held at Ken's House of Pancakes.

Artists exhibit at Montalvo

Lithographs, tiles and paintings by Nancy Genn and water color drawings by Bob Gerbracht will be featured at the Villa Montalvo's next exhibit, which runs from Tuesday, Jan. 4 to Sunday, Feb. 6.

The public is invited to meet the artists at a reception in the Montalvo Gallery on Sunday, Jan. 9 from 2 to 4 p.m.

A versatile exhibit artist, Nancy Genn is also a commissioned sculptress whose work can be seen in prominent public buildings including the Peninsula Hospital and Medical Center and the University of California at Santa Cruz.

Bob Gerbracht, who teaches arts and crafts at Castro Junior High School, has exhibited at many shows and galleries throughout the U.S. and has taught artists from fifth grade through college and adult education.

The exhibit, open daily except Monday is free on weekdays and charges 25-cents admission on weekends.

Fund for Jeanie Robinson grows

Skin grafts have been started on Mrs. Jeanie Robinson, who was badly burned in a fire in her Linda Drive home which took the lives of her husband and three children early this month.

According to Mrs. Pat Blalock. who with her husband. Leland, initiated a fund at Wells Fargo Bank in Campbell to offset Mrs. Robinson's medical expenses, Mrs. Robinson is able to walk a little aided by her mother, Mrs. Herman Foster.

Officials at Wells Fargo bank report that the fund established for Mrs. Robinson currently stands at $1302.55. Los Gatos Community Hospital, where Mrs. Robinson is confined, has donated her hospital costs.

Fall recipes

Favorite Yuletide fruits, oranges and cranberries combine for colorful and zesty Christmas desserts.

When selecting winter oranges, avoid large, puffy specimens since these have wasteful amounts of peel, and are often dry and woody.

Fresh cranberries disappear from the market in January, but you can extend the season by freezing them in the unopened bag.

CRANBERRY ORANGE UPSIDE DOWN CAKE

One tablespoon melted butter or margarine; One-half cup firmly packed light brown sugar; One orange, peeled and sectioned; One cup raw cranberries; One small (nine-ounce) yellow cake mix, mixed according to package directions, BUT substituting One-fourth cup orange juice for one-fourth cup of the liquid; one teaspoon grated orange peel.

Spread melted butter over bottom of an eight-inch square baking pan. Sprinkle brown sugar evenly over butter. Arrange orange sections in rows, pressing them into the sugar; top with cranberries, making sure they are distributed between the orange sections.

Mix cake, adding grated orange peel with last addition of liquid. Pour batter over oranges and cranberries in cake pan.

Bake in 350 degree oven for twenty to twenty-five minutes. Remove from oven and immediately turn out on serving plate. Serve plain or topped with whipped cream.

GRADUATES

Marjorie Bliss Stephenson of Abilene is one of approximately 62 persons who received degrees at the December graduation at Hardin-Simmons University, Abilene, Tex.

Marjorie's parents are Mr. and Mrs. G. D. Bliss, Jr., 76 Llewellyn Ave., Campbell.

Marjorie received a BS degree at May 21 commencement exercises in Behrens Chapel.

Pat and Michael wed by candlelight

Patricia and Michael De Benedictis left for a honeymoon to Lake Tahoe after a candlelight wedding ceremony performed by Reverend William H. Gould at the First United Methodist Church in Campbell.

The bride, attired in an empire gown of lutesong satin and long bell sleeves sewn and designed by her mother, was led to her groom on her father's arm. She is the daughter of Mr. and Mrs. John H. Bergthold of San Jose.

The gown, trimmed with rows of Venice lace was accented by the bride's bouquet of red roses, stephanotis and white carnations.

Long stemmed red roses were carried by the bride's attendants, sheathed in full-length pink gowns.

Attending the bride were Cheryl Burrus, of Campbell, maid of honor, Mrs. James Peifer of Campbell, and Joy Mase, bridesmaids. Trisha Bergthold and Julie De Benedictis were flower girls.

The groom is the son of Mrs. Margaret De Benedictis and the late Anthony De Benedictis, of Los Gatos. Michael chose Craig Moreland of Campbell for his best man. Ushers were Kenneth McCoy, and Joseph De Benedictis, brother of the groom.

Music for the wedding was provided by Robert Campbell, vocalist, and Mrs. Richard Lamy, organist.

Following the ceremony was a buffet dinner in the church fellowship hall, attended by 250. The five-tiered wedding cake, crowned with a tiny bouquet of baby red and pink roses, was made and decorated by the bride's mother.

Relatives at the wedding included Robert, Douglas and William Bergthold, brothers of the bride, Mrs. William (Bette) Foster, and Mrs. Bart (Judith) Campbell, sisters of the bride, Terry and Joseph De Benedictis, brothers of the groom and Debbie De Benedictis, sister of the groom.

The bride's mother wore a full-length aqua gown with silver trim and a corsage of white carnations. A full-length gown of ecru lace over a dark brown sheath, gold trim, and corsage of white carnations, was worn by the groom's mother.

Mr. and Mrs. Michael De Benedictis are both graduates of Camden High.

Patricia, a former member of Bethel 298 of Job's Daughters, attended San Jose State College and Santa Clara University.

Her husband attended San Jose City College. He is employed by Campbell's Auto Repair and Towing Service, while Patricia works at Atlantic Pacific Leasing.

The newlywed couple are making their home in Campbell.

MR. and MRS. MICHAEL DE BENEDICTIS

Students recycle glass and cans

The aluminum recycling center at Campbell High School, open again on Saturday, Jan. 8 from 10 a.m. to noon, will now accept glass for recycling, along with flattened aluminum cans.

Campbell High students will be in the school parking lot on Winchester Blvd. to accept the deposits.

To arrange for a pick-up of glass or aluminum at your home, phone 379-8885. The recycling center will not be open on New Year's Day, as previously scheduled.

GARDEN CLUB

Dig 'N 'Dream Garden Club will combine their regular meeting with a potluck luncheon on Wednesday, Jan. 2, at 10 a.m. in the home of Mrs. Charles Buran, 1288 Avis Dr.

Special guests will be the Valley Designers, who will display their own flower arrangements and explain the techniques.

POETRY HONORS

Ben Sweeney of 1325 Burrows Road recently shared first prize honors with another valley resident for his entry in the California Federation of Chaparral Poets haiku poetry contest.

Also, for the December Christmas theme, his "Ballad of the Belled Cap", received the CFCP first prize award.

YWCA teaches ethnic dances

The annual YWCA adult dance class holiday open house is planned for Thursday (Dec. 30) at the Metropolitan YWCA, South Second and San Antonio Streets, according to Jo Buttitta, instructor. It will begin at 8 p.m.

A new session of the folk, Latin and ballroom dance class is scheduled to start January 5 at 7:30 p.m.; at the Metropolitan YW, with three other ethnic dancing groups (Scottish country, Highland, and Balkan) starting the evening of January 13 and one (Greek) starting the morning of January 13. The latter will be at the Cambrian Center of the YW, 4343 Leigh Ave., with Scottish, Highland, and Balkan dancing at the Metropolitan YW.

Additional information is available at the Metropolitan YW, phone 292-1075, or the Cambrian Center, 269-7534. Registration is open for all classes, with both singles and couples welcome.

4-H clubs help national center

Santa Clara County's 55 4-H Clubs have set themselves a special task: raising as many dollars as they have club members, and that comes to $400.

The youngsters are pitching in with bake sales and car washes to help pay for expansion of the National 4-H Center in Washington, D.C., which needs a general meeting hall, cafeteria and expanded dormitory facilities.

4-H youth all across the nation are helping the drive with as much zeal as they give to local projects since the Center's influence spans the continent with adult leader forums, teen caravans, an international exchange program and the national conference of state 4-H Diamond Stars.

Local 4-H members who participated recently in the Center's activities include Robin Giblin of Los Gatos and Ted Wright of Campbell.

LEGAL NOTICE

ORDINANCE NO. 813
BEING AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF CAMPBELL ADOPTING PLANS, ELEVATIONS, AND DEVELOPMENT SCHEDULE FOR A PORTION OF THE PLANNED DEVELOPMENT ZONE AS ESTABLISHED BY ORDINANCE 797 ADOPTED ON THE 21ST DAY OF SEPTEMBER, 1971. APPLICATION OF ALAN SIMS, 866 EAST CAMPBELL AVENUE.

The City Council of the City of Campbell does ordain as follows:

SECTION ONE: That the Zoning Map of the City of Campbell is hereby changed and amended by adopting the attached "Exhibit A", entitled "Plans and Elevations", "Exhibit B", entitled "Development Schedule," and "Exhibit C" entitled "Map of said property", as per application of Alan Sims on property located at 866 East Campbell Avenue. Copies of said exhibits are on file in the office of the Planning Department.

Said approval granted subject to the following conditions:

1. Building plans must be submitted to the Fire Prevention Bureau and the building must meet all California Administrative Code Title 19 requirements.

2. The building shall meet all building code requirements for F-2 occupancy located in Fire Zone No. 2.

3. Property to be fenced and landscaped as indicated and as added in "red" on plans.

4. Landscape plan indicating type of plant material, location of hose bibs or sprinkler system and type of fencing to be submitted for approval of the Planning Director at time of application for building permit. All planter areas to be enclosed within 4" to 6" raised curbs.

5. Landscaping shall be maintained in accordance with the approved landscape plan.

6. Faithful performance bond in the amount of $1,000 to be posted to insure landscaping, fencing and striping of parking area within three (3) months of completion of construction, or applicant may file written agreement to complete landscaping, fencing and striping of parking area prior to final building department clearance.

7. Trash container(s) of a size and quantity necessary to service the development shall be located in area(s) approved by the fire department. Unless otherwise noted, said enclosure(s) shall consist of a concrete floor surrounded by a solid wall or fence and have self-closing doors of a size specified by the fire department.

8. All parking and driveway areas to be developed in compliance with Section 21.50.010 of the Campbell Municipal Code. All parking spaces to be provided with appropriate curbs or bumper guards.

9. Underground utilities to be provided as required by Section 20.16.070 of the Campbell Municipal Code.

10. Plans submitted to the building department for plan check shall indicate clearly the location of all connections for underground utilities including water, sewer, electric, telephone and television cables, etc.

11. Sign application to be submitted in accordance with provisions of the sign ordinance for all signs. No sign to be installed until application is approved and permit issued by the building department.

12. The applicant is to sign an agreement with the City that the English Pub use shall be terminated four (4) years from the date of final approval by the City.

The applicant is notified that he shall comply with all applicable Codes or Ordinances of the City of Campbell which pertain to this development and are not herein specified.

PASSED AND ADOPTED this 27th day of December, 1971, by the following roll call vote:

LEGAL NOTICE

ORDINANCE NO. 816
BEING AN ORDINANCE OF CITY OF CAMPBELL APPROVING THE ANNEXATION OF CERTAIN CONTIGUOUS UNINHABITED TERRITORY TO CITY OF CAMPBELL, MUNICIPAL CORPORATION, DESIGNATED AS WHITE OAKS 1971-5 ANNEXATION TO THE CITY OF CAMPBELL, IN ACCORDANCE WITH THE PROVISIONS OF SECTION 35300 ET SEQ. OF THE GOVERNMENT CODE OF CALIFORNIA.

WHEREAS, the City Council of Campbell, California, did heretofore on the 8th day of November, 1971, initiate proceedings for the annexation of certain uninhabited territory contiguous to the boundaries of City of Campbell; and,

WHEREAS, said action by the City Council was supported by the written petition from the owners of not less than one-fourth (1/4) of the area and of the assessed value of all the lands proposed to be annexed; and,

WHEREAS, the City Council of the City of Campbell did, on the 8th day of November, 1971, pass and adopt its Resolution of Intention to Annex said uninhabited territory, hereinafter described in Exhibit "A" which is attached hereto and made a part hereof, lying outside of and being contiguous to the boundaries of the City of Campbell, which said Resolution fixed notice of the day, hour and place where any person owning real property within such territory so proposed to be annexed and having any objections to the proposed annexation might appear before the legislative body and show cause why such territory should not be so annexed; and,

WHEREAS, the said Resolution and Notice was duly, regularly and lawfully published for two (2) successive weeks prior to such hearing in The Campbell Press, a newspaper of general circulation, published in the City of Campbell, and for two (2) successive weeks prior to such hearing in the Valley Journal, a newspaper of general circulation published outside the City of Campbell, but in the County of Santa Clara, State of California, proof of the publishers on file with the City Clerk of Campbell; and,

WHEREAS, true copies of said Resolution and Notice were duly and regularly mailed by said City Clerk to each property owner in said area proposed to be annexed as shown by the last equalized assessment roll in Santa Clara County as required by the provisions of Section 35311 of the Government Code of California, as amended, and all other requirements of said Government Code of California, as amended, and all other requirements of said Government Code with respect to the annexation of uninhabited territory having been complied with; and,

WHEREAS, such hearing was held pursuant to said Notice contained in said Resolution on the 13th day of December, 1971, at the time and place fixed therein; and,

WHEREAS, such hearing was not less than fifteen (15) days nor more than fifty (50) days from the date of passage of said Resolution; and,

WHEREAS, at the said hearing there were no protests by any owner or owners of one-half (1/2) of the value of the territory proposed to be annexed, according to the last equalized assessment roll of the County of Santa Clara, State of California; and,

WHEREAS, the City Council finds that the territory proposed to be annexed is contiguous to the boundaries of the City of Campbell, and that the same is uninhabited territory as defined by said Government Code of California, and that the annexation of the same would be for the best interest and general welfare of the people of the City of Campbell; and,

WHEREAS, all of the said territory is within the boundaries of Central Fire Protection District of the County of Santa Clara, State of California, and that it is for the best interest of the people of the City of Campbell that said lands described in Exhibit "A" which is attached hereto and made a part hereof, be withdrawn from said district.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF CAMPBELL DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. That the annexation of the uninhabited territory described in Exhibit "A" attached hereto and made a part hereof, be and the same is hereby annexed to the City of Campbell; and that the territory affected by this approval and the proceedings heretofore and shall be commonly known as White Oaks 1971-5 Annexation to the City of Campbell.

SECTION 2. That all of the lands, described in Exhibit "A" entitled "White Oaks 1971-5 Annexation to the City of Campbell" which is attached hereto and made a part hereof, be and the same are hereby withdrawn from Central Fire Protection District of the County of Santa Clara, State of California, and that an appropriate resolution be adopted withdrawing the same in accordance with the provisions of Section 14540 of the Health and Safety Code of the State of California.

SECTION 3. Pursuant to the provisions of the said Government Code of California, the City Clerk shall and she is hereby directed to file with the Secretary of State of California a certified copy of this ordinance immediately upon the said ordinance becoming effective.

SECTION 4. The City Clerk is hereby ordered and directed to file with the office of the Recorder of the County of Santa Clara, in which the City of Campbell, a municipal corporation, is located, an affidavit stating that all requirements of the law pertaining to such proceedings for annexation have been complied with. Be it further provided that this affidavit shall be accompanied by a certified copy of boundary description as set forth in the annexation proceedings and also by a map delineating such boundaries.

SECTION 5. That all expense of proceedings for the annexation of the said uninhabited territory be paid, and the sums be, and they are hereby allowed.

PASSED AND ADOPTED this 27th day of December, 1971, by the following vote:
AYES: Councilmen: Chamberlin, Podgorsek, Rogers, Doetsch
NOES: Councilmen: None
ABSENT: Councilmen: Smeed
APPROVED: Ralph Doetsch, Sr., Mayor.

LEGAL NOTICE

ORDINANCE NO. 815
BEING AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF CAMPBELL, ADOPTING PLANS, ELEVATIONS AND DEVELOPMENT SCHEDULE FOR THE PLANNED DEVELOPMENT ZONE ESTABLISHED BY ORDINANCE NO. 795 ADOPTED ON THE 13TH DAY OF SEPTEMBER, 1971. PROPERTY OF H. H. GREEN, 2605 WINCHESTER BOULEVARD.

The City Council of the City of Campbell does ordain as follows:

SECTION ONE: That the Zoning Map of the City of Campbell is hereby changed and amended by adopting the attached "Exhibit A", entitled "Plans and Elevations", "Exhibit B", entitled "Development Schedule" and "Exhibit C" entitled "Map", as per application of Harvey H. Green filed in the office of the Planning Department on October 26, 1971, on property located at 2605 Winchester Boulevard. Copies of said exhibits are on file in the office of the Planning Department.

Said approval granted subject to the following conditions:

1. Property to be fenced and landscaped as indicated and as added in "red" on plans.

2. Landscape plan indicating type of plant material, location of hose bibs or sprinkler system and type of fencing to be submitted for approval of the Planning Director at time of application for building permit. All planter areas to be enclosed within 4" to 6" raised curbs.

3. Landscaping shall be maintained in accordance with the approved landscape plan.

4. Faithful performance bond in the amount of $3,000 to be posted to insure landscaping, fencing and striping of parking area within three (3) months of completion of construction, or applicant may file written agreement to complete landscaping, fencing and striping of parking area prior to final building department clearance.

5. Trash container(s) of a size and quantity necessary to serve the development shall be located in area(s) approved by the fire department. Unless otherwise noted, said enclosure(s) shall consist of a concrete floor surrounded by a solid wall or fence and have six foot self-closing doors.

6. All parking and driveway areas to be developed in compliance with Section 21.50.010 of the Campbell Municipal Code. All parking spaces to be provided with appropriate curbs or bumper guards.

7. Underground utilities to be provided as required by Section 20.16.070 of the Campbell Municipal Code.

8. Plans submitted to the building department for plan check shall indicate clearly the location of all connections for underground utilities including water, sewer, electric, telephone and television cables, etc.

9. Sign application to be submitted in accordance with provisions of the sign ordinance for all signs. No sign to be installed until application is approved and permit issued by the building department.

10. Applicant to install ten (10) foot landscape area, subject to approval of Public Works Department, in lieu of the standard commercial sidewalk on the northerly 105 feet of Winchester Boulevard frontage.

11. Applicant to install a new fire hydrant on the Winchester Boulevard end of the property.

12. The pole lights as indicated on the plan are to be located in a manner and be of a height so as not to cast any glare into the adjoining residential area or onto any public street or freeway.

13. The sign as indicated on the westerly end of the property to be eliminated as a part of this application.

14. The Santa Clara County Department of Public Works has conditioned the approval as follows: The developer may outlet into the shallow 18" reinforced concrete pipe within the northwesterly quadrant of the interchange or jack a closed conduit under the northbound access road to the San Tomas Expressway to connect in turn to an existing culvert or expressway ditch. Plans for such outlet drainage facilities must be submitted for approval by the County Department of Public Works prior to issuance of an encroachment permit.

15. Applicant to secure moving permit from building department prior to relocation of the service station proposed for a service building.

The applicant is notified that he shall comply with all applicable Codes or Ordinances of the City of Campbell which pertain to this development and are not herein specified.

PASSED AND ADOPTED this 27th day of December, 1971 by the following vote:
AYES: Councilmen: Chamberlin, Podgorsek, Rogers, Doetsch
NOES: Councilmen: None
ABSENT: Councilmen: Smeed
APPROVED: Ralph Doetsch, Sr., Mayor.
ATTEST: Dorothy Trevethan, City Clerk.

PruneYard readies for grand opening

OLD TIMERS IN TOWN--Hans Hansen (left), owner of Tastegood Bakery since 1930 and Dr. Wyland (Duke) Morgan, dentist, took "seniority" honors at the Chamber of Commerce luncheon last week. Hansen received recognition for the longest continuous service as a merchant in town. Dr. Morgan, who opened his dental practice here in 1932, was named the longest in continuous professional service. The recognition was part of Small Business Week.

ANNUAL GAVEL EXCHANGE--On Monday night Vice-Mayor Ralph Doetsch, Sr., (right) was named mayor for the next year succeeding Dean Chamberlin, who served in that capacity the past year.

CHECK FOR MORGAN FUND--Norm Scott, president of Campbell Rotary Club, presents the proceeds from the Rotary-sponsored train ride which netted $2500 towards the John D. Morgan Fund, to Don Burr, acting chief of police. Onlookers are Ed Fabbri, finance chairman for the trip, and Mrs. Helen Dreher, Campbell police matron. Fund raisings for

COMING AND GOING--- Norm Paul, incoming president of the Chamber of Commerce, at the annual installation dinner presents Bob Bullard, 1970 president, with the engraved gavel in appreciation of Bullard's service during the past year.

Treasurer issue to go to voters

Voters within the City of Campbell next April will decide whether the office of City Treasurer should be appointed or elected, the City Council ruled Monday night.

In deciding to place the issue on the ballot, the Council followed the recommendation of the city's finance committee. City Treasurer Velma Olds is a member of the committee and concurred in the recommendation. Mrs. Olds' term will expire in 1974.

In making the recommendation, the committee pointed out, in the last few years, the many changes that have taken place in the accounting and auditing of city funds which have diminished the need for an elected city treasurer. However, the electorate must approve of such a change.

The Council on Monday also approved the expenditure of $9,320 for additional furnishings for the city hall, for which funds had already been budgeted. Such action had been recommended by the finance committee.

However, in approving the expenditure, the Council specified that bids should be asked for the various items that were needed.

The councilmen showed some concern, especially for the estimated cost that had been submitted for in/out baskets. The list indicated that 18 such baskets were needed at a cost of $30 each. The councilmen wanted to know more about that particular item.

The Council, however, decided to seek bids for auditing the city funds rather than continue with Peat, Marwick, Mitchell & Co., as recommended by the finance committee.

The Council also approved the establishment of a $50,000 bond for the finance director and specified that city funds could be placed in any bank within the city limits as well as in the bank that was a successful bidder for city bonds.

Under the previous policy the approved banks had to be specified by name.

Pre-Winter Tune-Up Insurance Against Hard Start Problem

★ ★ ★

A pre-winter tune-up remains the motorist's best insurance against starting problems.

This was one of the findings of the most recent study of hard starting problems conducted by Champion Spark Plug Company. Motorists in the United States and Canada were surveyed on their winter-time starting experience and on maintenance performed on their cars during the winter.

Results of the survey indicated:

Motorists who corrected hard starting by charging their batteries had up to three times the incidence of repeated failures than those who had tune-ups performed. Motorists who replaced batteries to correct starting problems still had from 28 percent more repeated trouble (in the U.S.) to 90 percent more (in Canada) than tune-up purchasers.

The effect of pre-winter maintenance was also demonstrated in the survey. In the United States, 28 percent of all motorists had starting problems at least once during the winter. Canadian car owners, living in a considerably colder climate, had a 27 percent rate of "won't starts."

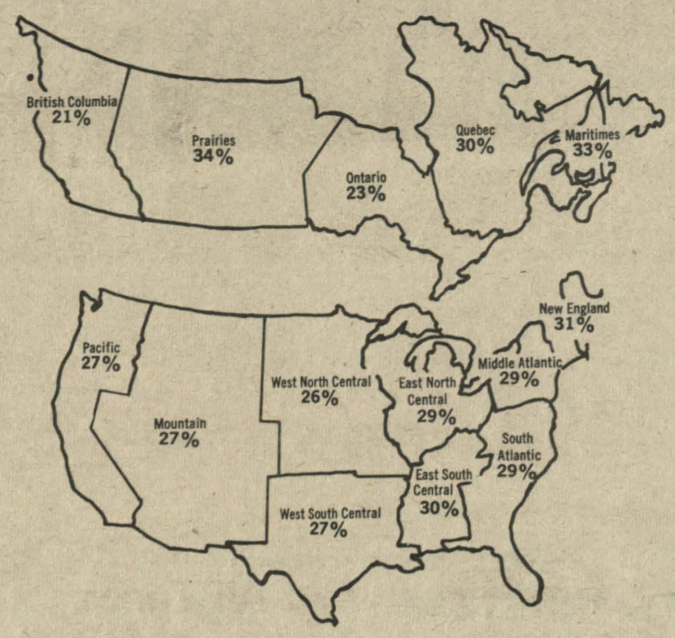
Key factor in these statistics, according to Champion, is the comparative rate of tune-up purchases. In the U.S., less than one out of every three motorists (33.1 percent) purchased a pre-winter tune-up. In Canada, 41.6 percent bought tune-ups.

The fact that residents of colder areas are more tune-up conscious than their warmer-climed counterparts is reflected in regional breakdowns of starting problems.

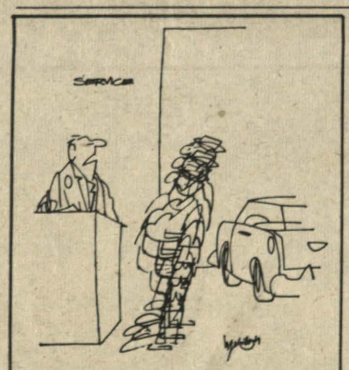
Motorists in the West North Central U.S. (including Minnesota, the Dakotas, Iowa, Kansas, Missouri and Nebraska) had four percent less starting trouble than motorists in Kentucky, Tennessee, Alabama and Georgia. Car owners in Ontario, Canada, had four percent less difficulties than California, Oregon and Washington State drivers.

The message seems to read, for trouble-free winter driving START with a tune-up.

No Area is Immune



No region of the United States or Canada is immune from starting trouble. Motorists in warm California or Florida are as likely to have difficulty as car owners in Montana and Michigan. In fact, motorists in cold Ontario have only slightly more starting trouble than their British Columbia counterparts who enjoy a mild winter climate. When comparing the two provinces in terms of tune-up purchases, the reason is apparent. Ontario has a high incidence of tune-ups while British Columbia has a low one. Compared to the U.S. average, Ontario has about five percent less starting trouble.



"SHOCKS?"

DOUBLE TROUBLE

A two percent incidence of spark plug misfire can more than double the rate of hydrocarbon emissions from a car's engine, according to Champion Spark Plug Company.

AVOID PROBLEMS

Dirty battery terminals can cut off your car's power quicker than an unpaid electric bill. Make sure your battery cables and terminals are clean.

Avoid Battery Problems With Quick Check

Ever wonder why sometimes during starting, your car's battery sounds like it's dying — then suddenly kicks off?

A major source of the problem could be dirty battery terminals or loose connections.

Open the hood of your car. Are the battery terminals covered with what looks like a green moss? If not, are they loose? The green substance is acid build-up. When it reaches a saturation point of covering the lead terminals, energy transmission is impaired and starting becomes a problem.

In advance stages of acid build-up, not enough energy is transmitted to even turn the engine over once!

Corroded or loose battery terminals are easy for your local service station mechanic to fix.

WE TAKE THE GUESSWORK OUT OF ENGINE SERVICE.

Six Month 'Check-Up' Keeps Wheels Aligned

By JODY CARR

Have you ever noticed how different your favorite shoes feel with new soles and heels? Because the wear had accumulated so gradually, you had been quite comfortable in those shoes and had not realized how worn they were.

This is rather like the sudden improvement in your car when you install new tires. You may have become accustomed to the vibrations and noise of your old tires. Suddenly, with new ones, the car seems to glide.

You feel a dramatic change in the handling of your car, too. Especially with some of the newly developed tire designs.

Don't "Kill" Tires

Your new tires can be expected to last longer if they are properly balanced and aligned. But even the best of them may live a short life if either of these factors is ignored.

It is not unusual for misalignment to scrub off a third of a tire's tread. This can amount to several times the price of the wheel alignment job that could have prevented such waste and would have made your car a safer one.

How do you know if your car's wheels need aligning? Your first clue may come from erratic steering. The car may wander or pull from one side to the other. Sometimes misalignment causes a shimmy similar to the action of an out-of-balance tire.

Tread Tells Story

Clue number two: For this, you have to get out and look closely at the tread wear on your tires.

If tires appear to be worn more at the outer edges than at the center (or vice versa), your problem may be nothing more than improper inflation. But tires worn more on one side than the other, or otherwise unevenly worn, probably are suffering from misalignment.

Your mechanic can help you differentiate between inflation, alignment and balance problems. But any one of the three should be attended to without delay when you first notice the symptoms.

Meantime, check wheel alignment and balance every six months. And when you have those new tires installed, be sure to have the wheels balanced.

check Prevent ACCIDENTS THIS SAFETY CHECK IS RECOMMENDED BY THE CANADA SAFETY COUNCIL

MIRRORS	Condition, mounting.	
HORN	Good operation.	
WIND-SHIELD WIPERS	Condition of Blades, motor, washer.	
GLASS	Condition, operation.	
LIGHTS	Front, rear light operation. Headlight alignment. Directional signals.	
TIRES	Wear, cracks, pressure, alignment, cambre.	
STEERING	Linkage wear, play. Tie rods. Springs, absorbers.	
BRAKES	Fluid level; leaks. Foot and hand brake. Brake linings.	
EXHAUST SYSTEM	Exhaust manifold. Muffler Condition.	

Are You In As Good Shape As Your Car Should Be?

It's one thing to get your car in good condition for that vacation trip. It's equally important to make sure you are in good condition — both physically and mentally — for those long hours behind the wheel.

The following are suggestions on making sure your trip will be a safe one as well as a pleasant one:

- **If you are tired, stop driving. Pace yourself; apply common sense.**
- **Eat lightly to avoid sluggishness.**
- **Don't rely on drugs or pills to prevent drowsiness. Keep something handy to chew. Light snacks help keep you alert.**
- **If you are driving alone, talk, sing, whistle or play the radio. This also keeps you alert.**
- **Never drive more than three hours without stopping for a stretch or a cup of coffee.**
- **Avoid driving at a constant speed. By varying your rate of travel slightly, you can help combat "highway hypnosis."**
- **Keep at least one window or vent open for a steady flow of fresh air.**

FOR THE ROAD

- **Rely on reflectorized road markings for visual clues. Use shoulder lines to keep "to the right" of roadway, specially on two-way roads.**
- **Keep glancing across the road surface between center and shoulder lines to keep eyes alert and functioning properly. Don't focus your vision on a single light or line ahead. This tires eyes.**
- **Drive slower at night to compensate for darkness.**

Exploring Safe Driving Rallies Organized Nationwide by Scouts

How would you like to drive into the winner's circle, only you don't know where it is, and you don't know how to get there, but you have to arrive exactly on time?

Such is the task for entrants in the Exploring Safe Driving Road Rally, a national program for Exploring-age boys and girls organized by the Exploring Division of the Boy Scouts of America.

With national sponsorship by Lincoln-Mercury Division of the Ford Motor Company, up to 36 rally teams compete in a fall final event for $7,000 in college scholarships and the use of a new car for a year.

Industry Sponsorship

Finalists are selected from local rally winners, organized by Exploring divisions in area Boy Scout Councils, often with the sponsorship of local industry. For example, the Toledo, Ohio area council rally, which sent the only all-girl team to the 1970 finals in Detroit, is sponsored by Champion Spark Plug Company.

Rallying, a favorite pastime for many in the "sports car" set, is not a speed event, but a competition involving driving and navigation skill, plus the ability to observe local traffic laws, against a clock.

Competitors run on a preselected course, encounter all types of driving conditions, and progress is established—against a time factor known to the rally master — via a number of checkpoints situated along the route.

Cars are sent from the starting point at one minute intervals and the navigator—the passenger — is handed a detailed instruction and direction list which will guide the rally team to the finish point.

Points are scored for arriving at checkpoints and the finish too soon or too late, and the team with the least points is the winner.

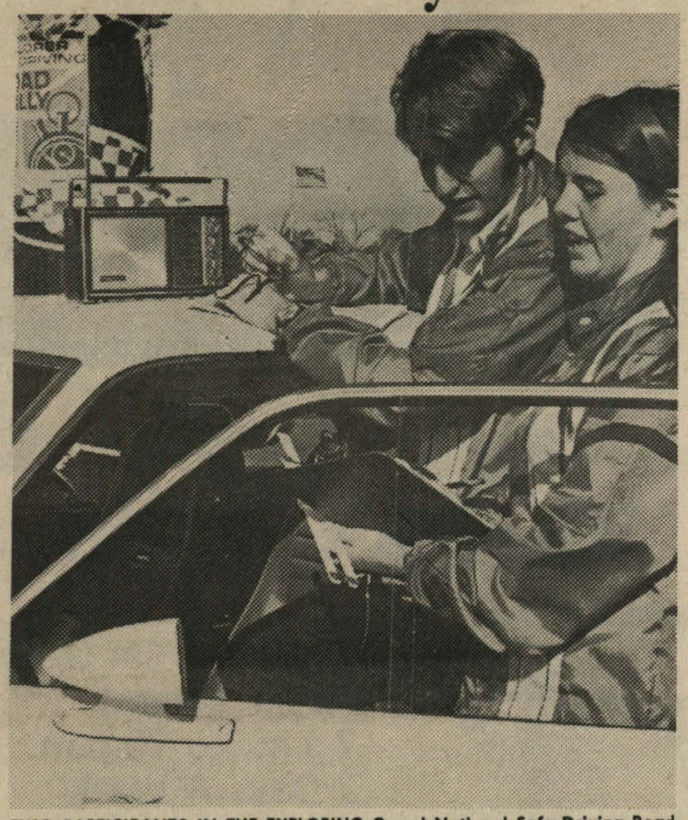
Classes are also a factor. Since time is the enemy, cars with elaborate expensive timing equipment are considered the "equipped" class. Cars using standard equipment, and perhaps stop watches and a slide rule, fall into the "unequipped" class. Normally, the two classes do not compete against one another, but do run in the same event. The Exploring rallies are all "unequipped."

Up To Navigator

One important factor in rally success is the navigator. It's up to him — or her — to advise the driver where to go, how fast to proceed and for how long. In the Exploring events, an observer is also allowed in the car to aid the navigator.

The Exploring rally program is an example of the modern, creative activities available to young people.

Entrants need not be an Explorer Scout to compete, but if they qualify for the national event, are required to join. And the rally program demonstrates to the competitors all racing does not rely on high speed, that careful driving and concentration is important for winning, especially in a broad rally.

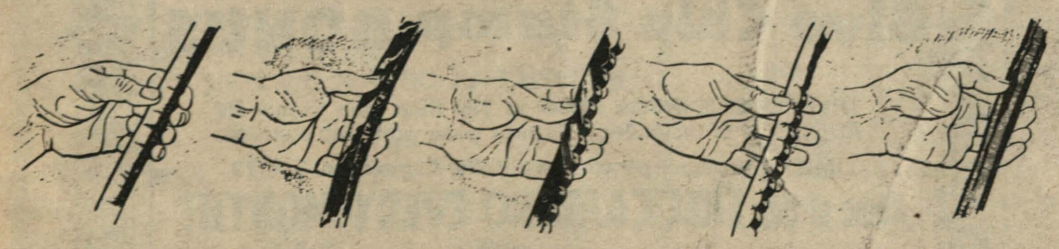


TWO PARTICIPANTS IN THE EXPLORING Grand National Safe Driving Road Rally mapped strategy before start of the six-hour, 125-mile ordeal. To get there, finalists had to master series of elimination competitions involving more than 23,000 rallyists and 10,000 cars. The final runoffs are sponsored by the Lincoln-Mercury Division, Ford Motor Company.

Powder Puff Mechanics

THE BRAKES OF THE GAME — Instructor Gene Flunker of Neenah, Wisconsin, explains the braking system to a group of students at the YWCA Powder Puff Mechanics course. The ladies learn the rudiments of automobile operation in the class, one of many offered by YW's throughout the United States and Canada. (Photo courtesy of Twin City News-Record)

Detecting Cooling System Failure is Easy



Crack on underside, enlarged by flexing belt. Can break any time.

Grease softened inner core, slick sides cause slips, rot rubber.

Belt with slick, hard sides slips, causes low battery, overheating.

Peeling inner core causes uneven, rough surfaces, will soon fail.

Belt looks okay from top; sides and bottom may be split, worn.

You don't have to be an expert car mechanic to detect a major cause of cooling system failure — it's frequently a bad V-belt.

Most modern cars have two or more V-belts. They are the belts that encircle the pulleys of your radiator fan, air conditioner, power steering, generator or alternator.

If you can lift the hood of our car, you can check the V-belts easily, in just a few seconds. (Or, if you prefer, ask your service station attendant to check them.)

With the engine stopped, turn the V-belt over in your fingers. Look carefully at the underside. If it resembles any of the pictures shown, the V-belt should be replaced

AUTO FACTS

Driver Licensing Test Scraps Old Traditions

Iowa has a head start on a new traffic safety program designed to provide identification and reinforcement of safe-driving attitudes and techniques. Called DrivoTEST, it is the nation's first automated drivers' license test.

The new examination, which scraps the traditional paper and pencil for automated audio-visual techniques, is being used in Des Moines, Iowa. DrivoTEST builds safe-driving attitudes by training as well as testing, because answers to the questions are explained.

An applicant enters one of the 20 separate booths and presses a button that starts a color movie shown on a personal TV set. The film dramatizes a series of traffic situations that call for knowledge of legal and safe-driving requirements.

The film stops at a planned moment in each situation and presents a multiple-choice question which the applicant answers with a push-button responder. His choices are transmitted electronically to a central console where they are instantly scored.

Another principal advantage of the DrivoTEST is that, unlike present methods, it teaches as well as tests. After each question, the film will tell which answer was right — and why. This procedure increases knowledge and builds safe-driving attitudes.

DrivoTEST is not designed to replace the entire licensing procedure. Iowa will continue to administer individual vision and on-the-road examinations.

Cutting Down on Emissions Is Job of New Converter

Further reduction in harmful emissions from automobile engines will be gained soon by the introduction of catalytic converters.

According to Arvin Automotive Aftermarket, a catalytic converter can eliminate most of emissions of hydrocarbons and carbon monoxide by oxidizing them.

One of the Arvin experimental converters contains a bed of catalytic pellets through which the polluted gases pass. As the gases go through the bed, the catalytic action of the converter causes combustion or oxidation of these pollutants into harmless gases.

Two such experimental converters were successfully used in 50,000 and 68,000-mile tests in cars operating on lead-free gasoline.

The converter in which the catalyst is placed can be a muffler-like container located near the engine compartment. A conventional muffler and exhaust system is still needed to reduce noise levels from the exhaust to a low level.

One car manufacturer has already indicated that some 1973 models will be equipped with a version of catalytic converter.

California Survey Reveals Toll of Repairable Defects

The accident report was terse. Driver — Male — Age 49. Car ran off freeway — rolled down embankment. Weather clear. Pavement dry. D.O.A. (Dead on Arrival.)

* * *

To those who read about the single car accident in the next morning's paper, that accident may have looked like another case of a drunk losing control of his car. But the California Highway Patrol wasn't satisfied with the explanation.

They studied the victim and his car as part of their investigation of the relationship between mechanical defects and single car highway fatalities.

A blood alcohol test showed he had not been drinking. A thorough check of the car showed the following:

The power steering belt and fan belt were loose.

The fan hub was loose on the water pump shaft, the right front lower ball joint shank failed at the edge of the right support arm. This caused the suspension at the right front wheel to fail.

Thus the driver lost control of his car and left the freeway, causing the fatal accident.

This case was but one in a detailed study of 409 fatal single vehicle accidents where 29% of the vehicles involved had one or more mechanical defects. Two out of three of these defects either caused the accident or contributed to it.

In 6.4% of the accidents investigated, a mechanical deficiency was directly responsible.

The two-year study disclosed 172 faulty mechanical systems in 119 vehicles. The most commonly observed problems were in braking systems, accounting for 35% of all defects found. Next were steering system defects at 26%, with tires ranking third at 21%. Additional factors, lumped together as miscellaneous (lighting, shock absorbers, exhaust systems, windshield wipers and others) accounted for 18%.

Nearly all reported defects were attributed to wear and lack of maintenance rather than design and assembly flaws.

Another accident reported by the California researchers involved a vehicle whose engine locked up when, at high speed on a freeway, a connecting rod broke. The vehicle went out of control, hit a guard rail and struck a bridge abutment. The driver was killed.

Make sure your car is in top condition before leaving on your trip.

Some Important Pointers on . . .
Proper Tire Care

Proper tire inflation is essential. Underinflation causes extreme sidewall flexing, builds up excessive heat, and causes rapid wear on the tire tread's outer edges.

Overinflation causes tires to run hard, subjects them to damage and weakening of the carcass, and causes excessive wear in the middle of the tread.

Check your owner's manual for recommended tire pressure.

* * *

Inspect tire exterior regularly for excessive or abnormal wear, fabric breaks, and cuts. Remove imbedded foreign matter.

Add an extra three or four pounds of pressure to cold tires prior to long trips where you anticipate driving at sustained high speeds.

* * *

Replace tires when tread is thinner than 2/32 of an inch, or the "wear indicator" on the tire appears.

* * *

Use the "air loss" method of spotting a potential tire failure. A tire that loses three or more pounds of pressure in a week or less, when the others remain the same, should be removed and inspected.

Carry a spare tire that is properly inflated and in good condition.

Never "bleed" a tire, even if pressure builds up an extra six or more pounds after the tire is heated from prolonged use.

University Study . . .
SaysTune-Up Is Cure for Air Pollution

They came to get a free tune-up. They left with the realization that a neglected engine is a major contributor to the air pollution problem.

When engineering students at the University of Detroit decided to help observe Engineering Week by offering free tune-ups to the public, the students did not anticipate the response.

Seeking to dramatize the effects of undermaintenance on harmful emissions, the students found 150 cars waiting in line at a campus facility. It was more than they could handle so they invited excess numbers of car owners back for a tune-up the following week.

Additional openings for the second week's clinics were exhausted in 15 minutes as the public phoned in for appointments.

What was the result of the Clinic's study?

After tune-up the average hydrocarbon emissions were reduced 52 percent.

And the average carbon monoxide emissions were reduced 58 percent.

According to clinic organizers Bob Kaczorowski and John Smreker, "The goals that were set for the tune-up were 400 parts per million of hydrocarbons and 2.0% carbon monoxide. The average HC reading coming in was 644 PPM. The average CO count was 3.06 percent.

"After tune-up the average HC count was 312 and the average CO count was 1.3 percent."

While most of the car owners were more motivated to bring their vehicles in for free service rather than concern for pollution, the project directors were somewhat optimistic.

Kaczorowski and Smreker commented, "After seeing what a difference a tune-up can make in their car's performance, mileage and pollution, we feel we have won a few converts."

CAR PICTURES

If a photo is to be taken from a car, it is always best to shoot from a stopped vehicle. If impossible to stop, it is best to shoot through the front window. If you shoot out of the side window, the foreground of the scene will be blurry. Hold the camera as steady as possible (a rule in all situations) without bracing it against the car, as the vibrations will blur the picture.

Keeping Car in Best Condition a Must For Winter Driving

A penny saved is a dollar squandered.

That's not how Poor Richard stated the case, but Poor Richard lived in an era before the automobile. If Destitute Dick had been a car owner he probably would have applied another of his famous sayings to the situation — "A stitch in time saves nine."

While most of us today are more careful than ever about how we shell out our money, neglecting needed car maintenance is a false saving. Let's look at the facts.

Most of us depend upon our cars for our livelihoods. Cars take 82 percent of us to work and back. Most of us seek out recreation by automobile, with 86 percent of all travelers using automobiles.

Most Important for Season

So, particularly in the coming months of winter weather, it is important to keep your car in top running condition, whether we're going to work or play.

How, exactly, does stinting on maintenance lead to potentially major expenditures? Consider these examples:

- **Merely washing and waxing your car to keep its body rust-free can mean a savings of several hundred dollars at trade-in time.**

* * *

- **Changing the oil and filter at recommended times can prevent premature and expensive engine wear.**

* * *

- **Regular tune-ups can cut gasoline bills, prevent road service bills and, in some cases, head off engine damage.**

* * *

- **Wheel alignments, rotating and balancing tires can make your tires last 25 percent longer.**

* * *

- **General car care makes your car safer and helps prevent accidents. Some estimates state that 10 percent of all fatal accidents can be attributed to neglect of maintenance.**

* * *

Today, there are even stronger reasons for good car care. A well-maintained engine, tuned to manufacturer's specifications, pollutes significantly less than a neglected one. Even with pollution-reducing improvements on the new cars, maintenance is the key to keeping pollution levels low.

Best Car Expenditure of Winter

Your investment in keeping your car in condition may be the best expenditure you make this season.

Visit your favorite service outlet soon to begin reaping the rewards of that investment — safer, surer performance from your car.

A Ten Count Guide to . . .
Your Car Safety

From Canada Safety Council

In boxing, a 10-count signifies a knockout. In driving, according to the Canada Safety Council, your car is subject to a 10-count too. That is 10 basic safety flaws and any one of them could count your car out of action.

The Council provides a list of the following ills and how you can detect them while driving. It also suggests having the symptoms corrected by your favorite service outlet as soon as you detect them.

1. **The brake pedal sinks to the floor under light foot pressure. This could mean worn brake linings or a leak of fluids in the system.**
2. **The car pulls constantly to one side when stopping. Possible causes include poor wheel alignment or brake lining worn on one side or oil soaked on one side, both due to wheel cylinder defects.**
3. **Excessive play in steering. Likely causes are a worn or faulty steering box, or worn or faulty ball joints, tie-rod ends, relay rods or idler arm.**
4. **Your car vibrates at 50 to 65 mph. Chances are defective tires, incorrect wheel balance or incorrect alignment is the cause.**
5. **Steering column shimmies at high or low speeds. Check for looseness in front end, defective shock absorbers or out of round tires with some flat surfaces.**
6. **Rear wheel locking upon light application of the brakes. The cause is probably a faulty or leaking oil seal.**
7. **Too much play in the steering while driving. Improper tire inflation or faulty front or rear suspension should be suspected.**
8. **Excessive noise from the exhaust system. Check exhaust-pipe, muffler or tail pipe for damage.**
9. **Unusual odors inside the car. This could have many sources but signals some engine defect.**
10. **Directional signal light not working. Check for burnt out bulb or defective flasher unit.**

WHERE THERE'S A HILL THERE'S A WAY TO ENJOY WINTER, whether on a snowmobile, skis, sled or toboggan. Cold-weather sporting opportunities have turned former winter-time hibernators into outdoor enthusiasts. Even though motoring to winter resorts may be more rigorous, a car that's kept in good condition will get you there every time. (Photo courtesy of Johnson Motors.)

Freeways Cost Money But Yield Dividends

Freeways may not be free, technically, but they are among the best investments the average citizen makes with his money.

According to the Highway Users Federation for Safety and Mobility, for every dollar expended from the U.S. Highway Trust Fund on the Interstates system, about $2.90 is returned in direct users benefit.

Taxes raised from gasoline, tires and trucks are building the most efficient and safe highway system the U.S. has ever enjoyed.

This year the Highway Trust Fund is observing its 15th Anniversary. Some of the highlights of the fund's benefits to the car owners are listed below:

- **The Federal-Aid Primary system accounts for less than 10 percent of all U.S. roads but carries about half of all motor vehicle travel.**
- **The 42,500-mile Interstate Highway system, to be completed by 1978, is nearly twice as safe as other roads and streets. In recent years the fatality record on the Interstate was 2.99 deaths per 100 million vehicle miles traveled vs. 5.62 miles for other roads. The Interstate system is saving 8,000 lives per year.**
- **In addition, the moneys paid into the Highway Trust Fund by taxpayers provide indirectly a longer-lived car. Non-stop, modern-designed superhighways help eliminate premature brake wear, prolonged idling time, less wear on suspension systems and shock absorbers among other benefits.**

Taxes, like death, may always be with us but it's good to know that some tax money is being used as fruitfully as highway taxes.

CLOGGED CLEANER

A clogged air cleaner can help cause a 75 percent increase in hydrocarbon emissions from a car's engine.

Three out of every five cars on the road are in need of tune-up work at any given time, according to Champion Spark Plug Company.

BANG!

The backfiring car almost seems a relic of bygone days. However, the modern car can backfire, too — especially when the fuel mixture is too lean and the engine cold. Other possible causes are sticky or leaky valves or ignition leakage. If your car backfires, take it to your favorite service outlet.

Minimize Risk - Care for Your Car

For Trouble-Free Driving Through Colder Weather, Watch Out for Your Own

Nothing makes as dull reading as a set of statistics. That is, unless you are a statistician or one of those statistics.

The sense-numbing traffic-accident statistics are no exception. True, the frequency of traffic accidents is proving to more people that "It can happen to me." But the constant flood of safety messages in print and over the air seem to fall on unlistening ears somewhat like the monotonous rhythms of an acid rock combo.

Maybe we are oversaturated with safety messages. Maybe we have begun to tune them out like a henpecked husband tunes out a nagging wife. Or, we are convinced that the other guy drinks and drives, handles his car like a maniac or just doesn't care.

But a deeper analysis of the situation reveals two discomforting facts:

1. The drinking or reckless driver as often as not collides with an innocent party — perhaps one who just wasn't paying attention until too late.

2. It is almost a psychological impossibility for a normal person to pay 100 percent attention to his driving 100 percent of the time. It is human nature to let your mind wander even momentarily. A pretty girl in a miniskirt may distract a man. Thoughts about what to cook for dinner may distract a woman. Luckily, most of us find these lapses short and without mishap.

So even if we live up to the requirements of operating a car safely, we are not immune to accidents.

* * *

While none of us has any power over what the other guy does, there is something all of us can control. That is the condition of the cars we drive. In keeping our cars in good shape we can minimize our chances of accidents.

In the heavily trafficked high speed highways we drive on, the condition in which our cars are kept can mean the difference between a close call and a disaster.

This state of affairs becomes particularly pertinent this time of year.

Days are shorter, increasing the added hazard of more nighttime driving.

Highway conditions are, likely as not, poor.

In-city traffic volume is at its highest due to increased business volume and holiday-season shopping. And holiday-time drinking ads to the menace.

While most responsible drivers keep these conditions in mind, the added hazard makes it more imperative to have certain elements of the car in top condition.

Obviously safe tires, sound braking systems and accurate steering are vital to safe operation. These components in good working order can help compensate for driver errors.

But other components must be in good condition for complete safety. A set of worn shock absorbers can help put a car out of control should a chuckhole or bad bump be encountered. Improperly aimed headlights can help conceal a bad traffic situation, particularly in winter with added hours of darkness. An unresponsive engine can hinder safe passing in a tight spot. A leaky exhaust system can make the driver drowsy or, in extreme cases, kill him with carbon monoxide, especially in winter when windows are closed. Defective signaling devices like horns or flasher lights can fail to warn another driver. And these items get more of a workout this time of year.

The list is long and grim.

True, there is no substitute for sober, alert driving practices. But these alone are no free pass to accident-free driving. Keeping your car in shape is almost as vital.

Put Your Car in Shape for Fall and Winter

Champion Spark Plug Company urges you to visit your neighborhood service station or garage to get your car in tiptop shape for fall and winter.

Next time you get behind the wheel, ask yourself one simple question: "Am I and is my car in condition to drive?"

Most Wear on Car Tires Traceable To Improper Wheel Alignment

A tip to motorists who like to play it safe — keep your car on the straight and narrow.

Proper wheel alignment will achieve that objective. When a tire, forcefully hits a chuckhole or similarly rough spot, the result can be wheel leaving its straight and proper course. This, in turn, can result not only in costly tire wear which can create a safety haard but also can result in damage to the car's frame.

Approximately 15 to 20 per cent of tire wear on all of our nation's cars comes from improper wheel alignment. Regular inspection of tires to make cartain wheels are rolling correctly not only will save motorists money but will reduce the chances of the car "creeping" toward a dangerous road shoulder or across a center lane, when the driver might relax vigilance for a moment.

A wheel off-line can result in scuff tire damage within a mile of driving. Few drivers realize the tremendous wear on a tire that, for example, "toes-in" or "toes-out." Each 10 miles of driving, with this kind of wheel misalignment, is equal to the tire wear which would come if the car were dragged sideways for 100 feet.

A tune-up improves gasoline mileage, and engine performance.

Planning a trip? Consult your local service station for the best routes.

During 10,000 miles of driving, spark plugs fire over 15,000,000 times.

Check your windshield wipers and cleaning fluid often.

Its a good idea to check all around your car before starting. Make sure that there are no glass or obstructions around your tires.

Keep winter driving safe

Guard against winter "won't starts"

Bring your car in for our expert engine tune-up: a new set of Champion spark plugs plus other basic tune-up items your car may need. It's the best winter "won't start" protection going!
